# MFC Support Group

Your partner in fertility, every step of the way...

Merrion  
Fertility  
Clinic

Arising from feedback from our recent Patient Focus Groups, Merrion Fertility Clinic has decided to commence a pilot programme offering support to patients through what can be a complex journey towards parenthood.

With an uncertain outcome, it takes much courage and commitment to trust and engage in the process. Few can understand the situation, except those that experience it.

The purpose of the programme is to facilitate patients to come together with the common objective of offering each other support and sharing their experiences in a safe and confidential environment.

This is a support group and not a therapy session and will be facilitated by Kay Duff. Kay has been in private practise as a counsellor, supervisor and facilitator since 1993. She trained and worked for 10 years with Relationship Ireland as a Couple's counsellor, coming to the area of Fertility in 2003 as the attending counsellor with the Merrion Fertility Clinic

The groups will take place in the Clinic on the third Wednesday of every month at 18.00-19.30, commencing on Wednesday 23rd September.

**Although these are open group sessions, registration within 24 hours of the group start time is required as places are limited. This is a free service for Merrion Fertility Clinic patients.**

To register for a session please contact Ingrid at 01 6635000 or email us at [info@merrionfertility.ie](mailto:info@merrionfertility.ie)
